Thank you for all your support. Regrettably, the 6th round ended up in 6th place. 3rd place in qualifying. Though I lead the race in the beginning of the qualifying session temporarily, there were some points that needed to be improved and something the team could try. We, team MUGEN will come together to grab a victory tomorrow in the 7th round.

Luckily, we will have another race tomorrow. I would like to try my best to grab the maximum 23 points. Please keep on supporting us.

Super Formula Championship Round 6 has just ended. I am so glad to win 2nd place and stand on the podium first of all, but at the same time I was struck with a sense that we need to improve our performance.

I will work hard with my teammates and try our best to take a lights-to-flag win tomorrow in the 7th round. Please support us.

[Director: Tanaka]

We have just finished the first race out of 2 races at Fuji Speedway. In qualifying both drivers could not win the pole position. But #16 Nojiri won 3rd place and #15 Iwasa did 4th place. We were fast enough to aim to win the race.

In the race both drivers suffered from strategies at each position. #15 Iwasa moved up his position from his qualifying and finished the race with 2nd place. #16 Nojiri was top in the first stint, but due to a strategy against #36 Tsuboi and undercut group, his pace did not improve in the second stint, and he ended up with 6th place. Our pace still does not catch up with that of other teams. We will do everything we can do for the 7th round tomorrow.
