

December 24th, 2024

MUGEN POWER 2025 TOKYO AUTO SALON 2025 EXHIBITION OVERVIEW

MUGEN (M-TEC Co., Ltd.) (hereinafter referred to as "MUGEN") will exhibit four-wheeled vehicles proposing possibilities for customization and a race car at Tokyo Auto Salon 2025, which will be held at Makuhari Messe in Chiba Prefecture from Friday, January 10th to Sunday, January 12th, 2025.

MUGEN's concept for 2025 is "MUGEN POWER 2025."

From motorsports category, we will exhibit the "Red Bull MOTUL MUGEN SF23 #16" that was driven by Tomoki Nojiri in the 2024 All Japan Super Formula Championship.

In terms of commercially available four-wheel vehicles, we will exhibit the "CIVIC TYPE R MUGEN Group.B Pre Production MODEL," which was developed over a year to further improve the performance of the "CIVIC TYPE R MUGEN Group.B" exhibited at the 2024 Tokyo Auto Salon and is installed with mass-production parts.

In addition, the "MUGEN CIVIC RS," which is installed with parts developed by MUGEN with a focus on driving performance, will also be exhibited, based on the concept of "Dynamic & Sports."

Other than those above, we will prepare the parts exhibition area where visitors can experience the effects that MUGEN products can have on the vehicles and the texture of the products themselves, as well as an opportunity for children to get in and experience the "Red Bull MOTUL MUGEN SF23 #16."

For more details, please refer to the following page.

無限 MUGEN

■ What to exhibit

Red Bull MOTUL MUGEN SF23 #16

The race car that Tomoki Nojiri drove in the 2024 All Japan Super Formula Championship to win two out of nine races and finish second in the drivers' rankings

CIVIC TYPE R MUGEN Group.B Pre Production MODEL

We developed the CIVIC TYPE R MUGEN Group.B, which was exhibited at the 2024 Tokyo Auto Salon, to realize the "Ultimate TYPE R." We spent a year developing it to further improve its performance and bring it to market. We will exhibit a vehicle equipped with mass-produced parts that have been developed without any compromise from the shape of each part to the use of lightweight materials such as carbon and titanium.

MUGEN CIVIC RS

Its development concept is "Dynamic & Sports", and to coincide with the minor change, we have developed exterior parts that achieve a sporty and striking styling, as well as performance parts that focus on driving.

A vehicle equipped with parts that are still under development for release will be exhibited for the first time at the Tokyo Auto Salon.

■ Experience area

We will set up an experience area where visitors can experience the effects on the vehicle body of installing MUGEN products and the texture of the products.

We plan to offer content such as comparing the FR10, a 19-inch forged aluminum wheel developed for the FL5 CIVIC TYPE R, with genuine wheels, experiencing vibration damping of the Performance Damper[®], and comparing weight with carbon parts.

We will also prepare a motorsports experience area where children can enjoy riding on the Red Bull MOTUL MUGEN SF23 #16 and a cardboard kids' formula car.

The event content, exhibited vehicles, and coloring are subject to change without notice.
