Cancelled due to heavy fog

[Driver: Nojiri]

Round 10 has been cancelled. We had hoped to achieve a good result here and then move on to the final round at Suzuka, but unfortunately the race was cancelled due to heavy fog.

We were not able to drive as well as we wanted in front of the spectators for two days in a row, which is a bit frustrating for us as well, but we suppose that it is just part of racing, so we hope you will continue to support us at the final round at Suzuka.

[Driver: Iwasa]

Unfortunately, I was not able to race. I qualified 4th, which of course was not the result I wanted, but the mechanics did an amazing job after yesterday's crash, and the car is now perfectly repaired.

I was also confident about the long run based on the feeling I had on Friday. I wanted to have a good race and aim for the win, but there is nothing I can do about this, so I will switch my mindset and focus on the next race at Suzuka.

Of course, I am still fighting for the championship, and although we are 14.5 points behind, we still have a chance to turn it around, so I am going to push as hard as I can until the very end. I appreciate your support.

[Director: Tanaka]

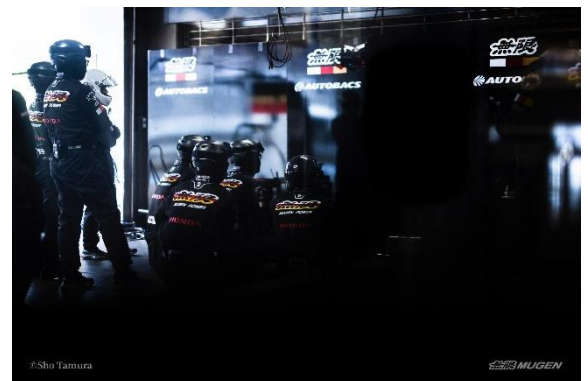

Qualifying was a little tricky as the track was still not completely dry, but both Iwasa in Q1-A and Nojiri in Q1-B managed to get through Q1 and advance to Q2.

The track conditions improved in Q2, but there were still some wet patches remaining. Iwasa finished in 4th place, while Nojiri's car was not quite suited to the conditions, coming in 5th.

Iwasa was making his qualifying attack in a car that had just been repaired after the previous day's crash, so he was a little worried, but the mechanics prepared the car perfectly. I think it was great that they were able to run well in qualifying.

As for the race, heavy fog made it difficult to get the race started, so we are very disappointed that we were not able to show the fans who came to the race, including those who came the day before, a Super Formula race.

We will continue to prepare to put on a good race at the next race in Suzuka, so we ask for your continued support.
